The screenshot displays the Maltego Community Edition 4.1.0 interface. The main window shows a network graph with a central hub and many outgoing connections. The left sidebar contains an Entity Palette with various entity types like Domain, AS, Banner, DNS Name, IP v4 Address, MX Record, NS Record, Netblock, and URL. Below the palette is a Run View section with transforms such as Company Stalker, Find Wikipedia Edits, and Footprint L1-L3. The bottom of the interface shows an Output - Transform Output window with the following text:

```
